The Oldest Establishment in the United States! THIRTY THOUSAND Of these instruments are now in use mostly in the United States and Canada, also in Europe, Asia, Africa, South America, and the West Indias, and from all these

quarters we have the most flattering testimonias of the high estimation in which they are held. At all Indus-trial Echibitions, they have invariably been Awarded the Highest Premium! whenever exhibiting in competition with others. We shall take pleasure in forwarding by mail (at our own expense) our *Illustratest Catalogue*, in which every

instrument we manufacture, is fully described and illustrated by elegant engravings. CAUTION !! We daily see advertisements of some new reed instrument, (with strange name,) purporting to be superior to Melodeons and School Organs. A new exterior and a new name will naturally attract attention; but the public will bear in mind that all Reed Instruments, now manufactured in the United States and Canada, are as near as they can be made without infringing
